Dual Hopper Coffee Grinders

Model 250

Model 250-3A

Features

Our 250 Series of coffee grinders offers fully automatic portion control, positive bean flow and precise portioning at all weights with all coffees, even oily dark roast and flavored varieties. These units have precision grinding burrs for accurate grind profile and fast grinding every time to accommodate all brewing methods.

Standard Features:

- Easy and accurate dispensing of all coffee roasts and flavored coffees
- Precise, consistent throws at all weights
- Large, dual hoppers which hold two coffee types
- Hopper Capacity: 5-1/2 lbs. (2.5 kg) each side
- Portioning individually set for each coffee type
- Patented portioning system gives unit a wide dispensing range
- Large grinding burrs for excellent grind profile and fast grinding time
- Accommodates all types of brewing equipment
- Patented universal brew rails accept all brew baskets
- 1/2 HP motor with circuit breaker

250 Dual Hopper Coffee Grinder
